

National Creativity Network

NationalCreativityNetwork.org

The National Creativity Network (NCN) engages, connects, informs, promotes, and counsels cross-sector stakeholders who skillfully use imagination, creativity and innovation to foster vibrant and flourishing individuals, institutions and communities across North America. **The NCN is a proud co-sponsor and lead co-organizer of Creative World – DC in the nation’s capital from July 16-30, 2016.** As part of our contribution, we have organized an exciting set of five events over four days in various venues to explore a variety of issues related to imagination, creativity, and innovation within various sectors including K-12 education, higher education, world religions, creative businesses, the creative economy, and creative industries.

Advance registration and ticketing is strongly recommended as space is limited at each venue.

- July 25** **Symposium on Imagination, Creativity and Innovation in World Religions: Two Examples from the Christian Tradition**
St. Nicholas Cathedral
- July 25** **DeafSpace Architecture and Innovation On and Off Campus,**
